

Join the Mountain West Society of Plastic Surgeons!

There has never been a better time to formally join the Mountain West Society of Plastic Surgeons (MWSPS).

The Mountain West Society was founded to promote camaraderie and education in the field of plastic surgery in the Mountain West Region of the United States.

Pay your membership dues for 2021 and receive early access to registration and discounted lodging for the MWSPS Annual Meeting 2021 in Utah.

To join MWSPS as an active member, you must be an active, board-certified member of the American Society of Plastic Surgeons. We also offer a resident membership and a candidate membership. Candidate membership is available for surgeons who are eligible but have not yet completed their board examinations.

Visit mountainwestsps.com to learn more.

Visit **www.ISPRES.org** for more information.

Encourage Your Staff to Join ASPSP today!

Take your practice to the next level! Encourage your office staff to join the American Society of Plastic Surgery Professionals (ASPSP)! Membership will provide them with educational and networking opportunities that can directly benefit your practice.

Networking

With their colleagues, your staff will be able to explore such topics as credentialing, onboarding new employees and tax considerations. ASPSP members also receive access to our member directory – making networking with those in the industry that much easier.

Meetings and Discounts

ASPSP collaborates with the American Society of Plastic Surgeons (ASPS) to co-host an annual Spring Meeting and is an official partner of Plastic Surgery The Meeting. ASPSP presents dedicated tracks at each event that provide attendees with new ways to take their practices to the next level.

As ASPSP members, not only will your staff receive discounted pricing on their annual PSTM registration, but you won't need to provide them with any additional documentation when they register!

Professional Growth

Not only do ASPSP members receive discounts on workshops and meetings but they will also receive access to the members-only area of our website in development. This includes our professional development tool kit and *Plastic Surgery News* online publications.

Education

Programs feature speakers who focus on topics relevant to today's demanding business practices. Plus, members receive access to the ASPS Education Network.

Mountain West Society of Plastic Surgeons

WELCOME LETTER

Dear Attendees,

For the 5th Annual Meeting of the Mountain West Society of Plastic Surgeons (MWSPS), we welcome you to Colorado and to the Snowmass Village, Westin Resort. As in years past, we have presentations from our regional experts in addition to talks from plastic surgery leaders from around the country. Our sessions will bookend our ski recess, which is adjacent to some of the best skiing in the United States. We continue our focus on resident education with Thursday evening resident oral presentations as well as daily resident poster viewing sessions. Please plan to join us on Thursday for the *Resident Reception: Open to All* at 7:00 PM. On Friday evening, there will be a *Welcome Reception* in the exhibit hall at 6:30 PM. Saturday evening will feature the *Non-Gala Dinner*, starting at 7:30 PM. Please note, this event is casual – as is the entirety of the meeting. No need to bring a suit or any formal wear. This is a ski meeting! Sunday we will conclude this year's annual gathering with our *Mock Oral Board Exams*.

Our keynote speaker this year is Rod Rohrich, MD, FACS, who will give a keynote lecture entitled: *Becoming Consistent in Rhinoplasty – the Pathway to Becoming an Expert*. Our speakers will cover the entire spectrum of plastic and reconstructive surgery. This year we have several new areas of focus including the role of social media in plastic surgery and gender-affirming surgery. The committee has assembled a great program and I look forward to some interactive sessions.

Welcome again to MWSPS 2020. I'd like to thank you all for helping us to grow the MWSPS Annual Meeting as a great forum for education, collaboration and friendship.

Tae Chong, MD
MWSPS President
Program Director, Division of Plastic and
Reconstructible Surgery - University of Colorado

Sientra breast tissue expanders are indicated for breast reconstruction. They are temporary expanders and are not intended for long-term or permanent implantation. Sientra breast tissue expanders are contraindicated in patients with active infection or existing carcinoma at the intended expansion site. Tissue Expanders with integral magnetic ports should not be used in patients who already have implanted devices subject to magnetic field interference or in patients where an MRI may be needed. Prior to use, plastic surgeons should review the Instructions for Use and detailed information regarding the risks and benefits of Sientra breast tissue expanders, located at sientra.com.

Mountain West Society of Plastic Surgeons

MEETING EVALUATION AND CME CREDIT CLAIM INFORMATION

Please complete the online meeting evaluation and claim credit for your participation in this activity. The link to the online meeting evaluation is: <https://www.surveymonkey.com/r/2020MWSPS> This link will also be sent to attendees via email following the MWSPS meeting. Upon completion and submission of the online evaluation and credit claim form, your CME credits will be automatically uploaded to your ASPS member record on April 1, 2020.

LEARNING OBJECTIVES

- Upon completion of this activity, participants should be able to:
- Incorporate into practice the latest scientific advances impacting plastic surgery for the improvement of patient outcomes and satisfaction
 - Summarize the latest research and clinical innovations in plastic surgery
 - Recognize opportunities to increase the safety of both aesthetic and reconstructive procedures

Accreditation: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education® (ACCME®) through the joint providership of the American Society of Plastic Surgeons® (ASPS®) and Mountain West Society of Plastic Surgeons®. The ASPS® is accredited by the ACCME® to provide continuing medical education for physicians.

Designation: The ASPS® designates this live activity for a maximum of **10.75 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity. Intended Audience This educational activity is intended for plastic surgeons, residents, and medical students interested in translating their expanding knowledge into practice, improving patient care, and improving outcomes. Of the 10.75 credits, 2 credits have been identified as applicable to patient safety.

- ABMS Competencies:**
1. Professionalism
 2. Patient Care and Procedural Skills
 3. Medical Knowledge

Disclosure Policy: The ASPS® requires all faculty, authors, planners, reviewers, managers, and other individuals in a position to control or influence the content of an activity to disclose all relevant financial relationship or affiliations. All Identified conflicts of interest must be resolved and the educational content thoroughly vetted by ASPS® for fair balance, scientific objectivity, and appropriateness of patient care recommendations. The ASPS® also requires faculty/authors to disclose when off-label/unapproved uses of a product are discussed in a CME activity or included in related materials.

Have You Felt the
MENTOR® MemoryGel® Xtra
Breast Implant?

In a blinded comparison **9 out of 10 consumers**
chose **MemoryGel® Xtra** Breast Implants as feeling
more like a natural breast than the other leading brand.*1

@BreastImplantsbyMentor
#MemoryGelXtra #MentorBreastImplants #OwnTheDay

*Head-to-head blinded in-person tabletop product comparison (MemoryGel Xtra vs. Inspira Responsive vs. Inspira Cohesive) with 452 respondents.
1. Mentor Consumer Preference Market Research Report - July 2017.

IMPORTANT SAFETY INFORMATION: MENTOR® MemoryGel® Breast Implants are indicated for breast augmentation in women who are at least 22 years old. Breast implant surgery should not be performed in women: With active infection anywhere in their body; With existing cancer or pre-cancer of their breast who have not received adequate treatment for those conditions; Who are currently pregnant or nursing. Safety and effectiveness have not been established in patients with autoimmune diseases (for example lupus and scleroderma), a weakened immune system, conditions that interfere with wound healing and blood clotting, or reduced blood supply to breast tissue. Patients with a diagnosis of depression, or other mental health disorders, should wait until resolution or stabilization of these conditions prior to undergoing breast implantation surgery. There are risks associated with breast implant surgery. You should be aware that breast implants are not lifetime devices and breast implantation may not be a one-time surgery. You may need additional unplanned surgeries on your breasts because of complications or unacceptable cosmetic outcomes. Many of the changes to your breast following implantation are irreversible (cannot be undone) and breast implants may affect your ability to breastfeed, either by reducing or eliminating milk production. Breast implants are not lifetime devices and breast implantation may not be a one-time surgery. The most common complications for breast augmentation with MemoryGel® Breast Implants include any resorption, capsular contracture, nipple sensation changes, and implant removal with or without replacement. A lower risk of complication is rupture. The health consequences of a ruptured silicone gel breast implant have not been fully established. MRI screenings are recommended three years after initial implant surgery and then every two years after to detect silent rupture. Detailed information regarding the risks and benefits associated with MENTOR® Breast Implants is provided in the educational brochure for MemoryGel® Implants. Important Information for Augmentation Patients about MENTOR® MemoryGel® Breast Implants. The brochure is available from your surgeon or visit www.mentorwllc.com. It is important that you read and understand the brochure when considering MENTOR® MemoryGel® Breast Implants.

9:10 – 9:25 AM **Lessons Learned from Battling the American Board of Cosmetic Surgery - the California Experience**
Michael Wong, MD

9:25 – 9:40 AM **Fat Grafting in Aesthetic Breast-Surgery Indications, Techniques and Pearls**
Robert Cohen, MD

9:40 – 9:55 AM **A Population-Based Study of Breast Implant Illness**
Alvin Kwok, MD

10:00 AM – 3:00 PM Recess

Recharge Break Chips, Salsa & Guac; Brownies & Blondies
Served During Poster Presentation

3:00 – 4:00 PM **Saturday Poster Session Break with Exhibits Industry Sponsors**
In Exhibit Hall

4:00 – 5:00 PM **Faculty Abstracts**

4:00 – 4:15 PM **Lipoaugmentation Following Implant Removal Provides a Favorable Aesthetic Outcome**
Sarah Mess, MD

4:15 – 4:30 PM **Maximizing Aesthetics in Gender-Affirming Chest Surgery**
John Brosious, MD

4:30 – 4:45 PM **Cliteroplasty in Male-to-Female Gender-Affirming Surgery**
Isak Goodwin, MD

4:45 – 5:00 PM **Genital Reconstruction Options for Gender-Affirming Surgery**
Chris Kaoutzanis, MD

5:00 – 5:25 PM **Keynote Lecture: Becoming Consistent in Rhinoplasty—The Pathway to Becoming an Expert**
Rod Rohrich, MD

5:25 – 6:55 PM **Faculty Abstracts**

5:25 – 5:40 PM **What's Behind Implant Rippling: Diagnosis and Solutions**
Hakim Said, MD

5:40 – 5:55 PM **Time-Driven Activity-Based Costing (TDABC) to Model the Cost Utility of Enhanced Recovery after Surgery (ERAS) Pathways in Microvascular Breast Reconstruction**
Alexander Mericli, MD

5:55 – 6:10 PM **Single Stage Oncoplastic Augmentation Mastopexy in Breast Conservation Therapy**
Miguel Medina, MD

6:10 – 6:25 PM **Pre-Shaping DIEP Flaps: Simplifying and Optimizing Breast Aesthetics**
Andrei Odobescu, MD

6:25 – 6:40 PM **Early Clinical and Functional Results of Agonist-Antagonist Myoneural Interface Amputation Procedures**
Matthew J. Carty, MD

6:40 – 6:55 PM **Extended Medial Sural Artery Perforator Free Flap for Groin and Scrotal Reconstruction**
Chad Teven, MD

7:30 – 10:00 PM **Non-Gala Dinner**

SUNDAY, MARCH 1, 2020

Not designated for CME credit.

(Registration 7:00 AM–11:00 AM)

7:00 – 8:00 AM **Morning Coffee with the Exhibitors Industry Sponsors**
In Exhibit Hall

8:00 – 8:10 AM **Mock Oral Board Instructions**
Corrine Wong, MD
University of Colorado

8:10 – 11:00 AM **Mock Oral Boards**

11:00 AM **Adjourn Meeting**

PROGRAM

FRIDAY, FEBRUARY 28, 2020

(Registration 6:30 AM–6:30 PM)

- 7:00 – 8:00 AM** Breakfast with the Exhibitors and Industry Sponsors
In Exhibit Hall
- 8:00 – 8:05 AM** Welcome Address
Tae Chong, MD
University of Colorado/President MWSPS
- 8:05 – 8:15 AM** American Society for Aesthetic Plastic Surgery Update (ASAPS)
Jennifer Walden, MD
- 8:15 – 8:30 AM** Anesthetic Exposure in Staged Versus Non-Staged Cleft Lip and Palate Repair: Can We Reduce Risk of Anesthesia-Induced Developmental Neurotoxicity?
Armando Davila, MD
- 8:30 – 8:45 AM** Virtual Surgical Planning for Delayed Zygomatic Maxillary Complex Reconstruction
Naomi Keshian, PAC
- 8:45 – 9:00 AM** Craniosynostosis Triaging System Using Machine Learning
John Phillips, MD
- 9:00 – 9:15 AM** Computer-assisted Planning in Craniosynostosis
Brooke French, MD
- 9:15 – 9:30 AM** I Follow the Rules Except When I Don't; a Discussion of Bias in Medicine
Alanna Rebecca, MD
- 9:30 – 9:45 AM** Making a Thumb Out of Too Much, Too Little, and Nothing at All
Tim Schaub, MD
- 9:45 – 10:00 AM** Targeted Muscle Reinnervation for Upper and Lower Limb Loss—a Paradigm Shift for Treating Painful Neuromas and Phantom Limb Pain.
Shaun Mendenhall, MD

10:00 AM–3:15 PM Recess

- 3:15 – 4:00 PM** Break with the Exhibitors
In Exhibit Hall
- Coffee Break** Supported by Mentor Worldwide, LLC
- S'More's Break** Supported by Mentor Worldwide, LLC
- 4:00 – 4:15 PM** Cervical Spine and Craniovertebral Junction Reconstruction with a Vascularized Fibula Free Flap: A Case Report, Systematic Review, and Meta-Analysis
Joshua Goldman, MD
- 4:15 – 4:30 PM** Allograft Nerve Reconstruction of the Inferior Alveolar Nerve at the Time of Free Fibula Flap Mandible Reconstruction
Patrick Garvey, MD
- 4:30 – 4:45 PM** Wound Healing Technique Utilizing an Autologous Homologous Skin Construct Promotes Closure in Recalcitrant Wounds: A Single Institution Retrospective Case Series
William Abouhassan, MD
- 4:45 – 5:00 PM** Chronic Neuropathic Pain After Burn Injury: Algorithms for Medical and Surgical Management
Scott Hultman, MD
- 5:00 – 5:15 PM** Perforator Anatomy of the Anteromedial Thigh (AMT), Profundus Artery (PAP), and Ulnar Artery Perforator (UAP) Flaps
Ron Yu, MD
- 5:15 – 5:30 PM** Abdominal Wall Transplantation
Detlev Erdmann, MD
- 5:30 – 6:30 PM** Friday Poster Session
In Exhibit Hall
- 6:30 – 7:30 PM** Welcome Reception
In Exhibit Hall

SATURDAY, FEBRUARY 29, 2020

(Registration 6:30 AM–6:30 PM)

- 7:00 – 8:00 AM** Breakfast with the Exhibitors
In Exhibit Hall
- 8:00 – 8:10 AM** Welcome and Announcements
Tae Chong, MD
University of Colorado/ MWSPS President

PROGRAM

THURSDAY, FEBRUARY 27, 2020

(Registration 2:00 – 6:30 PM)

- 4:15 – 4:20 PM

Welcome Address
Tae Chong, MD, MWSPS President
University of Colorado
- 4:20 – 6:55 PM

MWSPS Resident Abstract Finalists
Tae Chong, MD, Moderator
University of Colorado/
- 4:20 – 4:25 PM

Determinants of 30-Day Readmission after Infraumbilical Panniculectomy in a Nation-Wide Cohort
Barkat Ali, MD
University of New Mexico, Health Sciences Center
- 4:25 – 4:30 PM

Deep Inferior Epigastric Artery Vascularized Lymph Node Transfer: A Simple and Safe Option for Lymphedema
Rachel Danforth, MD
Indiana University
- 4:30 – 4:35 PM

Is Immediate Lymphatic Reconstruction (L.Y.M.P.H.A) Cost-Effective?
Anna Rose Johnson, MPH
Beth Israel Deaconess Medical Center
- 4:35 – 4:40 PM

Improving Aesthetics By Combining Autologous- and Adjustable Implant-Based Breast Reconstruction
Irene Ma, MD
Stanford University
- 4:40 – 4:45 PM

Q & A
- 4:45 – 4:50 PM

Optimizing Pain Control After Implant-Based Breast Reconstruction: A Systematic Review
Jeremie Oliver, BS, BA
University of Utah Health
- 4:50 – 4:55 PM

Does the Timing of TAP Blocks (Early Versus Late) During Flap Harvest Affect Narcotic Use in DIEP Flap Breast Reconstruction?
Meenakshi Rajan, MD
University of Texas Health Science Center San Antonio

- 4:55 – 5:00 PM

Autologous Fat Grafting Does Not Increase Risk of Oncologic Recurrence in the Reconstructed Breast
Max Shrout, MD
Mayo Clinic Arizona
- 5:00 – 5:05 PM

Current Practices in Pathologic Assessment of Breast Tissue in Female-to-Male Transgender Top Surgery
Jacob Veith, MD
University of Utah, Division of Plastic Surgery
- 5:05 – 5:10 PM

Q & A
- 5:10 – 5:15 PM

Understanding Disparities in Post-Mastectomy Breast Reconstruction Utilization in the Rural State of Nevada
Maxwell Vest, MD
University of Nevada Las Vegas
- 5:15 – 5:20 PM

Validation of the “Wisconsin Criteria” for Obtaining Dedicated Facial Imaging and Its Financial Impact at a Level 1 Trauma Center
Christopher Stewart, MD
University of Minnesota
- 5:20 – 5:25 PM

Geriatric Age Confers Increased Risk of Post-Operative Complications Following Open Reduction Internal Fixation for Distal Radius Fracture: An Analysis of Geriatric Patients from the 2005-2017 NSQIP Databases
Dattesh Dave, MD
UC Davis
- 5:25 – 5:30 PM

DIEP Breast Reconstruction in the Obese Population: Assessing the Complication Risk of Your Patient
Charles Patterson, MD
Louisiana State University School of Medicine
- 5:30 – 5:35 PM

Q & A
- 5:35 – 5:40 PM

Abdominal Wall Reconstruction after Orthotopic Liver Transplantation
Philip Brazio, MD
Stanford University

PROGRAM

- 5:40 – 5:45 PM

Comparison of First and Full Union Rates in Free Fibula Mandible Reconstruction Utilizing Cadcam vs Non Cadcam
Luke Grome, MD
Baylor College of Medicine
- 5:45 – 5:50 PM

Rat Hind Limb Transplant Model to Assess Vascularized Composite Allograft (VCA) Ischemic Reperfusion Injury and Inflammation
Alexander Harrant, BS
University of Colorado Anschutz Medical Campus
- 5:50 – 5:55 PM

Treatment of Trigeminal Trophic Syndrome Using Scalp Based Flap Reconstruction: Case Report
Joshua Harrison, MD
University of New Mexico
- 5:55 – 6:00 PM

Q & A
- 6:00 – 6:05 PM

Trends in Microvascular Breast Reconstruction: An Evaluation of 8,561 Cases in the ACS National Surgical Quality Improvement Program Database
Kathleen Holoyda, MD
University of Utah
- 6:05 – 6:10 PM

Superficial Facial System: Does Closure Improve Donor Site Outcomes in DIEP Patients?
Ariel Johnson, BS
University of Colorado
- 6:10 – 6:15 PM

Wound Complications in Revision Total Knee Arthroplasty: An Analysis of ACS-NSQIP
Leela Mundra, MD
University of Colorado
- 6:15 – 6:20 PM

First Case Report of a Navajo Indian Patient with Morbihan’s Disease: Insight into Oculoplastic Treatment of a Rare Disease
Lacey Pflibsen, MD
Mayo Clinic Arizona
- 6:20 – 6:25 PM

Q & A
- 6:25 – 6:30 PM

Medicare Reimbursement Trends for Reconstructive Plastic Surgery Procedures
Danielle Thornburg, MD
Mayo Clinic
- 6:30 – 6:35 PM

Soft Tissue Regeneration for Critical Extremity Wounds: A Prospective, Randomized Controlled Trial of a Regeneration-Based Technique
Radebe Torabi, MD
Louisiana State University Health Sciences Center
- 6:35 – 6:40 PM

Reconstruction of Pelvic Oncologic Defects: Outcomes and Trends Analysis of the National Inpatient Sample (NIS) Database
Matthew Zeiderman, MD
UC Davis Health
- 6:40 – 6:45 PM

Characterization of the Ocular Immune Response in a Rodent Model of Whole Eye Transplantation
Bing Li, MD
University of Colorado Anschutz Medical Campus
- 6:45 – 6:50 PM

Mammoglobin: A Tissue Marker to Improve Breast Surgery
James Willcockson, MD
University of Utah
- 6:50 – 6:55 PM

Q & A
- 7:00 PM

Resident Reception: Open to All
Sponsored by Integra LifeSciences
